LIVING ASSISTANCE SERVICES

651-653-0110

America's Choice in Homecare.

What steps are involved in implementing services?

- Simply call 651-653-0110 and you will be directly connected to a Visiting Angels team member.
- Working closely with the client and/or family, the Client Care Manager will arrange for a consult and intake.
- During the intake a Visiting Angels Registered Nurse will assess your needs and recommend a plan of care. This plan is tailored to meet your specific needs.
- Because no two clients are alike, we are careful to match our caregivers with your personality and needs! It's important to remember, however, that continuity in care is very important, so we ask that our clients allow replacement caregivers when needed.

How far in advance do I need to call to set up services?

- We work to handle all service requests as needed from same day to several weeks in advance.
- It is helpful if we are given at least 24-hours advance notice of service need; however, we are known for our fast turnaround time, if needed—often times within only 2 hours.

Who Does Visiting Angels Hire?

- At Visiting Angels we insist that our Caregivers have enthusiasm and passion for working with and helping people.
- All of our Caregivers are required to pass a comprehensive background screening, one of the most stringent in the business.
- Additionally, our Caregivers are required to complete an extensive New Employee Training Program and Competency prior to being placed with a Client.
- All of our Caregivers are insured and bonded through Visiting Angels.

- Personal Care (*Bathing, Dressing, Grooming, etc.*)
- Friendly Companionship
- Respite Care for Families
- Partner with Hospice
- Hourly, Overnight, and Couple Care Options
- Medication Management
