Typically, with proper treatment and antibiotics, the flu lasts about two weeks. Seniors (over age 65) are at higher risk of suffering complications from the flu, many symptoms can last even after the virus is out of your system. The flu can be impactful for seniors who suffer from:

Diabetes—Kidney problems—Heart problems—Asthma—Chronic lung disease—Liver problems—Obesity issues—Those on steroids or Chemotherapy

All these medical conditions can leave a more severe effect, hospitalization stays and even death. Please get a flu shot as directed by your medical professional.

Visiting Angels cares about their employees. Please be a flu fighter, stay healthy and get a flu shot. King Soopers does FREE flu shots on Wednesdays from 9 am to 9 pm. Please give a copy to Deania for our records

## Birthdays this month

Peggy October 1<sup>st</sup>

Jody October 11<sup>th</sup>

Francisca October 17<sup>th</sup>

**A caregiver recognition program** has been developed to reward excellent performance and say "Thank you" for going above and beyond. We will reward you with "Angel Bucks", then you can collect them and when ready, you can redeem them in the Angel Store for valuable items.

HOW TO MAKE MONEY

**Employee referral program**.....Refer a new caregiver and receive a bonus.....Visiting Angels is looking for Weekend and overnight caregivers. Have them call the office and speak with Lisa 543-4220 Thank you!

(719) 543-4220
